Professional Summary

Computer science graduate with hands-on experience building a document question-answering prototype using Python, FastAPI and vector search. Seeking a junior AI engineering role.

Education

BSc in Computer Science

2026

University of Jordan

Projects

Research Paper Assistant

[github.com/lina-demo/research-assistant](#)

Python, FastAPI, vector search

- Implemented document ingestion and API endpoints for a course-paper question-answering prototype using Python, FastAPI and vector search.

Skills

Programming: Python, TypeScript

AI & Data: Vector search, data preprocessing

Tools & Platforms: FastAPI, Git

Training

- Machine Learning Summer School, 2025

Activities & Volunteering

- IEEE student branch event volunteer

Languages

- Arabic (native)
- English (professional)
